

Getting access to SEM measurements at FZEM

Preamble. Any user that intends to book devices or services of one of our units has to request access to this unit, before. The respective requests are accessible only after your group is properly registered with BioSupraMol, what has to be performed by the group head.

Before you can book the SEM your entitlement has to be approved by your group head. The request 'Register with Scanning Electron Microscopy (EM unit) - BSM' is accessible at the Service tab on <https://fub.openiris.io>. Once this request is approved, you will have access to SEM measurements at the *Forschungszentrum für Elektronenmikroskopie* (FZEM).

The screenshot shows the OpenIRIS web interface. At the top, there are navigation tabs: 'Browse', 'Scheduler', 'Services', and 'Dashboard'. The 'Services' tab is selected. Below the tabs, there are search filters: 'Administration OpenIRIS@FUB (BCP)', 'Any resource type', and a search box containing 'scanning'. A red arrow points to the 'Services' tab, and a red circle highlights the search box. Below the filters, a service card is displayed for 'Register with Scanning Electron Microscopy (EM unit) - BSM'. The card includes the provider name, contact information, and resource type. A green arrow points to the 'SUBMIT REQUEST' button on the right side of the card. The status is 'Online' and there is a note that the group must be registered with BioSupraMol.

- Log in and activate the 'Services' tab.
- Select 'Administration OpenIRIS@FUB (BCP)', 'Any resource type' and filter to 'Register with Scanning Electron Microscopy ...'.
- Click 'Submit Request' and fill in the form on the opening page.
 - If you are registered with more than one group, make sure to select the group that will pay for your measurements.

The groups' head must then approve your application, because he/she will bear the expenses for the measurements according to the usage policies of the core facility BioSupraMol (user guidelines). Only after this approval, your access to SEM measurements will be granted. Give us one or two days.

Do not forget to log off from IRIS after usage!
